

TO WHOM IT MAY CONCERN

In February 1999 I purchased a home at Fairleigh Lake, west of Penticton, the house was in need of major repairs/renovations. My real estate person recommended that I contact P.C.S. Construction. P.C.S. Construction, namely Percy has completely renovated my home by the end of 1999. I had Percy redo the roof, deck, install hardwood flooring, ceramic tile, new windows and doors and arranged for all other work that needed doing. Percy's work standard is excellent, he pays particular attention to detail, he also listens to exactly what I need doing, making communication very easy. The work Percy did not do himself he supervised making sure every detail was correct, from replacing walls, bathrooms, kitchen plus adding a new kitchen to new exterior doors. Percy was always pleasant, cheerful, reliable and very helpful. I would have no hesitation recommending Percy of P.C.S. Construction to anyone.

C.N. Forrest
